

Contact Manager App UI:

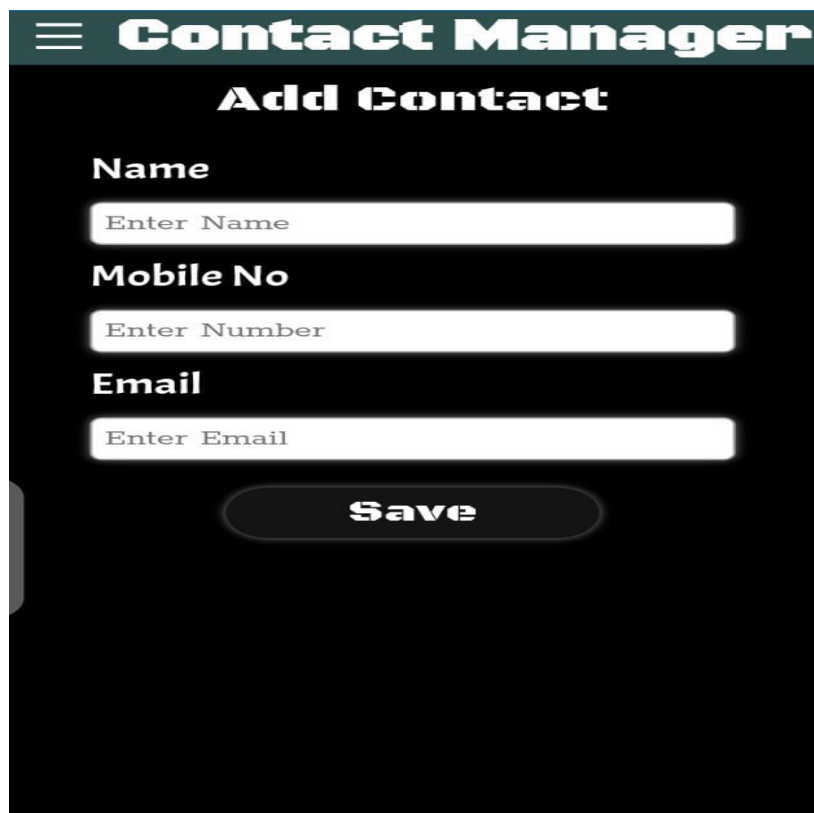

1. Brief guide of App and Click On **LET'S GO** to move further.

2. After Login in we will get the contact info page where I added the menu bar, contact button, and search bar.

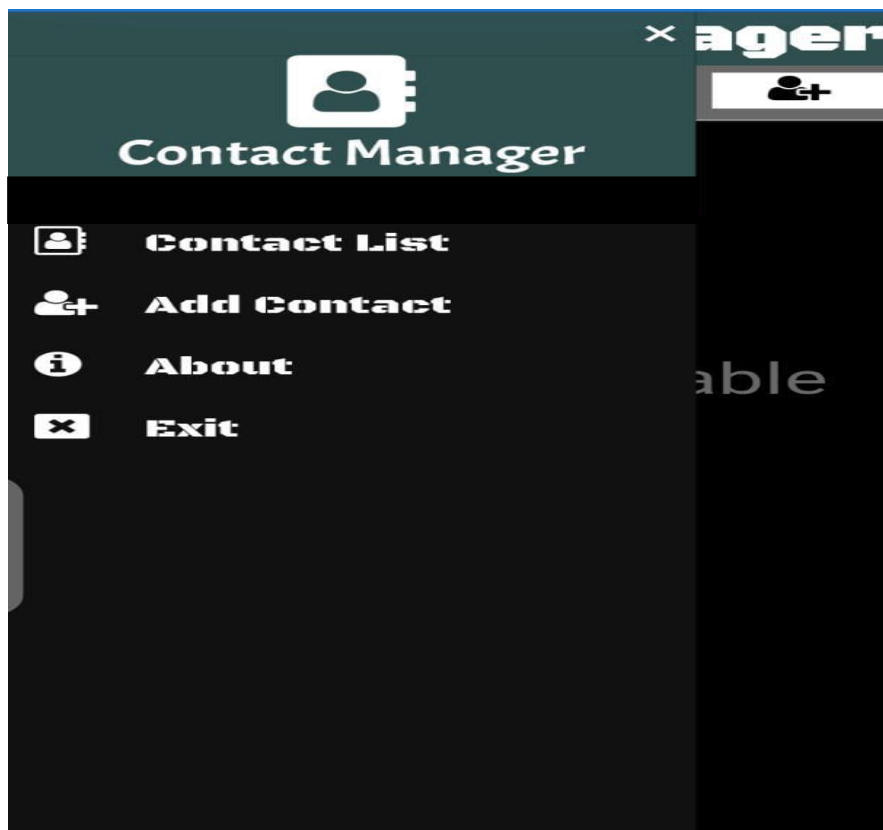

3. Add Contact Page UI page.

The image shows a mobile application interface for adding a contact. At the top, there is a dark green header bar with a white hamburger menu icon on the left and the text "Contact Manager" in white. Below the header, the title "Add Contact" is displayed in white. The form consists of three white input fields stacked vertically, each with a label in white text above it: "Name" (with placeholder "Enter Name"), "Mobile No" (with placeholder "Enter Number"), and "Email" (with placeholder "Enter Email"). At the bottom of the form is a white rounded rectangular button with the text "Save" in black.

4. Menu Bar:

5. Contact List after Adding the Contact
